SYNOPSIS

A series of short stories with a fetish, eccentric, porn, and funny sexuality, in the same remixed and exasperated tone of Italian picaresque comedies. There can't be any possible linear storytelling in this lesson of sexual misbehaving, because Germondari & Spagnoli's four eyes see a lot more than a single pair and have a lot less guilt than many. So, high impact voyeurism is the base here for a whole festive imagery of sex, no matter how strange, vulgar, or chic it may be, seem or look. This new cinematographic Kamasutra features Adam and Eve in a paradise of infinitely tempting red apples, a pornographer focused on his Little Red Riding Hood, an androgynous shooter, some playful bi sexuality, multiple-use inflatable bodies, and other indecent fun elements of the flesh. And all that in the context of Italian architecture, which even if it seems touristic, it draws an appealing key on each door to explore other locations of pleasure. You just have to know how to look and enjoy.
