A moving love story with blow-up dolls; what a man will do in order to have sex with a mysterious stranger; a dominatrix with a very specialized skill – these are just some of the stories in this highly original, surreal and most importantly, very funny collection of tales about sex from Italy. Introduced by Adam and Eve who are suitably obsessed with forbidden fruits, these absurd tales reminded us why sex is the hidden driving force behind the human existence. One of the highlights of the festival and not to be missed.
